Subject: Water License 2BE-MSX0712 - Request
Date: Friday, May 07, 2010 2:51:37 PM

Hi Phyllis,

I believe you were cc'd on an email earlier today from Andrew Keim concerning a water permit I am currently working on. We are in the process of closing and removing the camp and I would like to ask for permission from the board to allow us to burn the remaining wood structures. Once we remove the canvas skins and all camp equipment there will be 9 wood frames and floors. The lumber is all untreated wood and every effort would be made to ensure all metal from the ashes is raked and removed from site. Once the structures are burned then the normal remediation procedures will ensure the site is reclaimed to its original form.

If you require some documentation or if there is an application form that I can submit to make an official request please let me know.

Thank you,

Corey
