**Maze Lake Project**

## **Water License 2010 Annual Report Maze Lake Joint Venture**

### **1. Introduction**

On April 27, 2007 Terrane Metals submitted an application to the Nunavut Water Board (NWB) for a water use and waste disposal license regarding the Maze Lake project in the Kivalliq District of Nunavut. The application was accepted and the license 2BE-MZE0712 was issued on July 12, 2007 by NWB with a five year term, expiring on November 30, 2012. This report states the amount of water used, disposal activities that have been carried and reclamation work undertaken in 2010.

### **2. Camp information and schedule**

The Maze Lake camp was established in 2007, and was de-mobilized at the end of the 2008 field season, with all waste material backhauled to Whale Cove by helicopter. At present, the camp consists only of plywood tent floors and a storage silo. No exploration was conducted in 2010; no camp was established and there was no water use.

### **3. Water use and waste disposal activities**

#### **3.1 Camp and drill operations water use**

There was no exploration, and no water use in 2010 on the property.

#### **3.2 Camp and drill operations waste disposal activities**

No camp or drill operations occurred in 2010, and there was no waste disposal.

### **4. Unauthorized discharge and follow-up actions**

No unauthorized discharge was reported from 2010.

### **5. The Spill Contingency Plan and Abandonment and Restoration Plan**

Spill contingency plans were not updated during the 2010 period.

### **6. Reclamation work undertaken**

No reclamation activity occurred in 2010.
