Dear Mr. Dwyer,

My name is Geoff Newton. I am a geologist working for Laurentian Goldfields Ltd. We have optioned the Maze Lake property from Terrane Metals. There was no 2009 exploration program conducted at Maze Lake to report on. I can submit a letter to that effect.

If you could please call me at 604-312-3299 regarding the other reports that must be submitted for Maze Lake, I can make sure that you receive the information that you need.

Thank you very much for your time.

Yours,

Geoff Newton
