Richard

Thank you for your note. Savant has no plans to work on the property in 2011 so it is best to allow the license to expire.

Regards

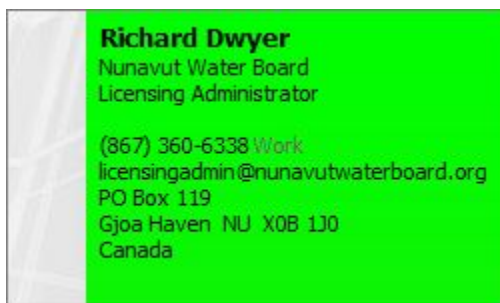

Jack

Dear Mr. Dwyer

Please accept my apologies for not getting the Spill Contingencies and Abandonment plan in to you when they were due. As I explain in my attached letter, the planned program of drilling never occurred initially due to the lack of available crew and drill machine then subsequently due to the Great Recession which made funding of the project impossible.

The earliest we foresee doing any work on the property would be in 2012.

Please let me know if the attached reports meet your requirements.

Regards

John McClintock
