Hi Sean,

The original application to INAC was for a camp on eastern Ellef Ringnes. When we flew by to check the old landing strip, we discovered that the strip was washed out. We found another airstrip in good condition on the west side of the island.

INAC told us that because the general area was the same, and because we had not yet done anything on the ground, we could modify our application to the new site without having to start the process over (see attached email from Brian O'Mara).

The site we would like to use for our camp is at: 78° 13' 14" N and 101° 4' 34" as per the attached map.

Thanks,

Keith

Dear Mr. Dewing:

Could you please confirm the coordinates for the proposed research camp on Ellef Ringnes Island. The coordinates provided on NWB Licence application is 78° 13' 14" N and 101° 4' 34" whereas the coordinates provided on INAC application form is 78° 17' 15" N and 99° 53' 08" W.

Regards,

Sean B. Joseph
