Subject: 3BC-ERI---- Spill Contingency Plan Requirement

Good afternoon Keith,

Following a preliminary technical review of the application (3BC-ERI----), the NWB requires in addition to the email of earlier today from Richard Dwyer, a Spill Contingency Plan. The plan should be prepared in the format set out by the Consolidation of Spill Contingency Planning and Reporting Regulations R-068-93. Should you have any questions as to what is required in a Spill Plan, I am available at the below number or return email.

Don
