**Subject: Licence No. 3BC-GEM0911 “Melville Integrated Geoscience Project”  
Qikiqtani Region, Nunavut; Submission of the Addendum to the Spill  
Contingency Plan**

---

Dear Mr. Corrigan:

The Nunavut Water Board (“NWB”) has completed a technical review of the Addendum to the Spill Contingency Plan (Addendum), which was received on August 31, 2009. The Addendum was found to be generally meeting the reporting requirements of the licence. However, a map providing details on the location of the camps as well as a copy of NT-NU Spill Report Form should be included within the Addendum.

It is also noted that Part B, Item 2 of the licence states:

The Licensee shall file an Annual Report on the appurtenant undertaking with the Board no later than March 31<sup>st</sup> of the year following the calendar year being reported.

Part I, Item 1 states:

The Licensee shall submit to the Board for Approval, six (6) months prior the completion of onsite activities, an Abandonment and Reclamation Plan, prepared in accordance with applicable sections of the “Guidelines for Abandonment and Restoration Planning for Mines in the Northwest Territories (1990)”, to address camp site remediation operations.

NWB states that no annual report and Abandonment and Reclamation Plan have been submitted by Licensee as far. The Licensee is requested to submit all required information and documents to meet the reporting requirements of the licence 3BC-GEM0911.

Should you have any questions, please feel free to contact the undersigned at (867) 360-6338 Ext. 30, at your earliest convenience.

Yours truly,

*Original Signed By:*
