HEALTH AND SAFETY

ICE ROAD

Number

General 07-03b

Révision # : 0

Date :

11-26-2007

WHEN : Start on 11-26-2007

WHO : All concerned personnel involved on ice road.

HOW : Observe the following procedure below

1. In addition to the general 07-03 procedure “**Meadowbank road (AWPR)**” this procedure applies for driving on the ice road.
2. Agnico-Eagle Mines Limited Meadowbank Project may use an ice road to carry cargo on flat bed truck or equipment on its own power.
3. The ice road will be constructed on fresh water lake ice.
4. There shall be a short 45 degrees access of the road to the shore complete with a transition curve from the road on the lake.
5. The maximum speed on the ice road shall be 15 km/hr. The speed from the transition curve going on to the shore shall not exceed 10 km/hr.
6. No vehicles shall stop on the ice and shall maintain a speed of at least 2 km/hr while on the ice road.
7. Equipment operators and passengers need not wear seat belts while on the ice road.
8. Signs must be respect all time. Stay between alignments marks.
