SUBJECT: Mineral Exploration Notification, Northwestern Baffin Island

NIRB,

This letter serves to notify NIRB of plans by Cominco Ltd. for a modest mineral exploration program on northern Baffin Island in 1999. A brief project summary follows.

Cominco Ltd. has explored in the Borden Basin, northwestern Baffin Island, in 1995, 1996 and 1998, and plans a limited diamond drill program, three holes, 900 m total, for the period June 14 - July 5, 1999. Targets are within N.T. Prospecting Permits 2161, NTS 48A/13, located northeast of the head of Adams Sound, 40 km southeast of Nanisivik, and Permit 2208, NTS 48A/11, located in the headwater region of Fleming River, 65 km southeast of Nanisivik. The program has a contingency for minor prospecting and silt geochemistry elsewhere on northwestern Baffin Island, outside of the permit areas. Attached is a 1:250,000 map showing permit areas and approximate diamond drill hole locations. All work is on crown land; a N.T. Land Use Permit application is in progress.

Work in 1999 will be based out of the Nanisivik townsite. Personnel will include 4 drill crew, a drill foreman, a geologist (myself) and a contingency for a geological assistant, and 2 helicopter crew. Environmental impact will be minimal because there are no planned roads, no heavy ground equipment, there will be no field base camp, no flycamps, and drill mobilization, drill moves and crew changes will be serviced by helicopter stationed at the STOL port at the edge of the townsite (i.e. there will be no ATV ground transport of crew). Further, there will be no helicopter fuel caches or temporary air strips; bulk jet fuel will be used at the STOL port, and diesel fuel will be flown to the drill as needed. Significant ground preparation/alteration for drill sites will not be necessary, and all drill sites will be completely cleaned up at the termination of each hole; any sumps will be filled. Drill, supplies and all non-combustible scrap and garbage will be returned to the Nanisivik minesite at the completion of the job.

Arctic Bay hamlet officials and local organizations have been consulted regarding this proposed work, and will be kept informed as plans progress. Public consultation was not deemed necessary during discussions with officials which followed distribution of an information circular and request for feedback, in Inuktitut, on the project (attached). I will meet with the mayor in Arctic Bay at the start of the project to ensure local concerns are addressed. As with previous work, all provisions and rules set out in previous discussions, and in Prospecting Permit guidelines, will be met. It is a Cominco Ltd. policy not to disturb or harm wildlife in any way during the course of field work and this will be strictly enforced during the upcoming summer program. A Nunavut Water License Application is in progress.

We are looking forward to a productive and enjoyable time on northwestern Baffin Island again this summer. Please contact myself or Ken Leigh if you have any questions regarding this application, or if you require any additional information.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Mike Gunning', written in a cursive style.

Telephone no. - N° de téléphone

604-682-0611

3. Field supervisor - Chef de chantier

Michael H. Gunning

Radio telephone - Téléphone-réseau

Telephone no. - N° de téléphone

4. Other personnel (Subcontractor, contractors, company staff, etc.) - Autre personnel (Sous-traitants, entrepreneurs, personnel de société, etc.)

Five diamond drill personnel, Baart Longyear Inc., North Bay, ON

TOTAL: Six Field Crew

Also: Company staff, Ken Leigh, Project Geologist, Arctic Islands

5. a) Summary of operation (Describe purpose, nature and location of all activities - refer to Section 22 (2) (b) - Territorial Land Use Regulations). (Use last page of form if additional room is required).
Résumé des opérations (exposez le but, la nature ainsi que l'emplacement de toutes les activités - consultez l'article 22 (2) b) - du Règlement sur l'utilisation des terres territoriales). Utilisez la dernière page du formulaire si vous avez besoin d'espace supplémentaire).

Cominco Ltd. has explored on northwest Baffin Island in 1995, 1996 and 1998 and plans approximately 900 m of diamond drilling, three holes 300 m each, two on Adams Sound target (Permit 2161) and one on Fleming River target (Permit 2208). Five man drill crew, two man helicopter crew, and one geologist based at Nanisivik townsite; drill mobilization, drill moves and crew changes serviced by helicopter based at Nanisivik.

b) Please indicate if a camp is to be set up (Use last page to provide details).

Indiquez si un camp doit être aménagé (Utilisez la dernière page pour donner des détails).

No camp set-up.

6. Summary of potential environmental and resource impacts (Describe the effects of the proposed program on land, water, flora & fauna and related socio-economic areas (Use separate pages if necessary).
Résumé des conséquences possibles sur l'environnement et les ressources (décrire les effets du programme proposé sur les terres, l'eau, la flore et la faune et les domaines socio-économiques connexes (Utilisez des pages supplémentaires au besoin)).

Minimal environmental impact: 1. no field base camp, no fly camps, all work based out of Nanisivik; 2. no fuel caches, no temp. airstrips (bulk jet fuel for helicopter at Nanisivik, diesel fuel for drill ferried to sites as needed); 3. no surface exploration away from drill sites; 4. no ATV ground transport of crew.

No major ground preparation/alteration will be required for drill sites. Drill sites will be completely cleaned up at the termination of each hole; all scrap metal and non-combustible garbage will be returned to Nanisivik. Any sumps established at drill sites will be filled. Drill core will be left at the site, neatly stacked, labeled and covered.

8. Other rights, licences or permits related to this permit application (mineral claims, timber permits, water licences, etc.)
Autres droits, autorisations ou permis associés à cette demande de permis (claims miniers, permis de coupe, permis d'exploitation hydraulique, etc.)

All diamond drill targets are within N.T. Prospecting Permits 2161 and 2208, held in good standing by Cominco Ltd.

Roads: ☒ None ☐ Is this to be a planned road? ☐ Has the road been laid out or ground marked? ☐ Has funding been applied for i.e. RTAP?
Routes: ☐ Please provide details on back page ☐ Le route doit-elle être aménagée? ☐ Le tracé a-t-il été établi et le terrain marqué? ☐ Avez-vous demandé du financement?

9. Proposed disposal methods - Méthodes d'élimination proposées

a) Garbage: burn and bury combustibles
Ordures: retourner non-combustibles to Nanisivik

c) Brush & trees: N/A
Broussailles et arbres:

b) Sewage (Sanitary & Grey Water): N/A
Eaux usées (Eaux d'égout et eaux ménagères)

d) Overburden (Organic soils, waste material, etc.): N/A
Terrain de recouvrement (Dépôts organiques, déchets, etc.)

10. Equipment (includes drills, pumps, etc.) (Please use last page if required)
Matériel (comprend foreuses, pompes, etc.) (Utilisez la dernière page au besoin)

Type & Number - Type et nombre	Size - Dimension	Proposed use - Utilisation proposée
Longyear Fly 38 Drill and accessory equipment	in 10,000 lbs	Diamond Drilling, 900 m, 3 holes
4 Time supply pumps for drill	in 1,500 lbs	Water supply: source → drill tank → drill str.
Helicopter: Bell 206 / Hughes 500		Drill moves, crew changes

Fuels - Combustibles	(N)	Number of containers - Nombre de réservoirs	Capacity of containers - Capacité des réservoirs
• Diesel	✓	40 drums	45 gal.
• Gasoline - Essence		—	
• Aviation Fuel - Carburant aviation		—	
• Propane		—	
• Other		—	

12. Contingency fuel spill contingency plans (Please attach separate contingency plan if necessary)
Plans d'urgence d'écoulement de carburant en cas de déversement (veuillez joindre un plan d'urgence distinct au besoin)

see attached "Emergency Spill Response Plan"

13. Methods of fuel transfer (To other tanks, vehicles, etc.) - Méthodes de transfert des combustibles (vers d'autres réservoirs, véhicules, etc.)

Diesel: hand pump from 45 gal. drum → drill tanks.

14. Period of operation (includes time)
Période d'opération (comprends temps)

June 14 - July 5 (maximum) : drill crew, helicopter crew, geologist

15. Period of permit (up to two years, with maximum of one year extension)
Période du permis (valable pour une durée de deux ans et prolongation maximale d'un an)

Start date - Date du début du projet

Completion date - Date d'achèvement
