Dionne Filiatratre Technical Advisor Nunavut Water Board Gjoa Haven, NT. Fax: (867) 360-6369

Dear Dionne:

Re: Muskox Holdings/McGregor Lake

On October 9th, 1998 NIRB forwarded its screening decision for a water license for Canamera Geological for the McGregor Lake project under file #98W07N101. NIRB does not have any objections to re-assigning the current water permit for Canamera Geological to Muskox Holdings Ltd.

NIRB is currently screening the land use permit for KIA and DIAND for Mineral Exploration at Specrs Lake/McGregor Lake from Muskox Holdings Lt. Additional terms and conditions for the drilling activities will be included in the NIRB screening decision, that will be forwarded to KIA and DIAND to be included in the land use permit.

Any questions, please do not hesitate to contact me.

Thank you

Jaida Edwards
