Juliana:

My company is planning some mining exploration work in Nunavut in April and as part of the water licensing, we require an executive summary to be translated into Inuktitut.

Yesterday, in a conversation with Pearl Benyk, she mentioned your name. Would you translate the enclosed executive summary and send one copy to David Porter, Nunavut Water Board in Gjoa Haven, and one copy to our office in Vancouver.

I have enclosed the first page of the water license form for reference. Please call me or Ray Cahill at your convenience at 604 668 8355.

Regards,

Mark Cannuli
