Hello Rita,

Although I am late in responding to the water license renewal application (comments due May 1 2000), I also discovered that DFO (Lyndon Kivi, DFO file # NU99029) has previously responded to NIRB (File # 00EN101) regarding this application on April 17, 2000. I understand that NIRB forwards those comments directly to the water board. If this is the case, please accept those comments to pertain to your request for advice.

Thank you! Please call if you have any further questions.
