Subject: Application for Water License – Baker Lake Sewage Lagoon and Wetlands

Dear Mr. Wootton:

The Nunavut Water Board (NWB) acknowledges receipt, on July 8, 2008, of an application for a water license for research activities in the Kivalliq Region of Nunavut, specifically sampling of wastewater that runs through licensed lagoons and wetlands.

Based on the information provided, the NWB has determined that there is no requirement for a water license as there is no use of water or deposit of waste associated with this activity.

Thank you for taking the time to submit this proposal.

Sincerely,
