Subject: Application for Water License – Paleoenvironments and Thule Social Change on the Melville Peninsula Project – Research Activities

Dear Ms. Finkelstein:

The Nunavut Water Board (NWB or Board) acknowledges the application dated June 3, 2008 for a Type B water licence for a research camp located in the Kivalliq Region of Nunavut. In processing this application, the NWB has determined that the time period for which the application was made has now lapsed. Accordingly, the NWB is returning your application.

To ensure adequate time for processing of future applications, the NWB recommends that an application be submitted at least 90 days prior to any planned commencement of water use or deposition of waste requiring a water licence. If the water use and/or the deposition of waste are likely to extend over several years, the NWB also encourages applicants to apply for a multi-year term.

If you require further information on the application process, please contact the Manager of Licensing at licensing@nunavutwaterboard.org.

Sincerely,

Original signed by:

Phyllis Beaulieu
Manager of Licensing
