Hi Sean,

Thanks, I don't think that 8WLC-GBI---- is still required. Thanks for the follow up,

Mike

Hi Mike,

The approval- without-Licence Number 8WLC-ASR1617, issued April 2, 2016 and attached to your email, seems to have been issued for activities related to the same project so could you please confirm that approval-without-licence number 8WLC-GBI---- is still required.

Regards,

Sean

Hi Sean,

Thanks again for following up with us. Please find attached a map of the study area.

Also of note, as far as we know we have already been issued the license for this project on April 8. Please see attached 2016 approval letter.

I have also attached our 2015 approval for this project. Prior to 2015 this project was embedded within our other project at East Bay.

Thanks again Sean. If you have any other questions at all please let myself or Jake(cc'd) know.

Mike

Hi Mike,

As a follow-up to our phone call this morning, the following items are required before the NWB could issue a decision on the application submitted for the Coastal Surveys of Common Eider Nesting Islands Along the South Baffin Coast Project:

- Map highlighting the project area and camp location; and

-List of Type "B" water licences, existing or expired, that are associated with the project.

Regards,

Sean Joseph

Hi Sean,

The Coastal Surveys of Common Eider nesting islands along the South Baffin Coast is still planned and will take place in July.

The permit for the Belcher Islands (January 1 - March 31 2016) is no longer required.

Thanks for checking, please let me know if you have any other questions.

Hello Sean,

Which project is this regarding?

Subject: Application No. 8WLC-GBI----

Hi Grant,

Could you please confirm at your earliest convenience whether or not the requested approval for the above-mentioned file is still required given that your application states that the field work is intended to be undertaken during the period January 1 - March 31 (2016? or 2017?).

Regards,

Sean Joseph
