RE: Required information for renewal application of Licence No. 1BR-LTU0608

Dear Mr. Molinski,

During a review of Transport Canada's 1BR-LTU0608 renewal application, it was noted that several documents requiring submission under the expired Licence have not been received by the Nunavut Water Board (NWB). These items include:

1. A Spill Contingency Plan required to be submitted with the Annual Report (Part H, Item 2);
2. An Abandonment and Restoration Plan to be submitted at least six (6) months prior to the expiry of the Licence (Part I, Item 1); and
3. As-Built diagrams for the Land Treatment Unit within ninety (90) days following construction (Part E, Item 4).

The NWB requires the submission of the above documents prior to processing the application. Please contact me at [dcarr@nunavutwaterboard.org](mailto:dcarr@nunavutwaterboard.org) or by telephone at (867) 360-6338 should you have any questions as to the NWB requirements. Should the above files take significant time to procure, the NWB appreciates being advised on the expected timeline.

Sincerely

*Original Signed By:*
