Nunavut, Transport Canada – Environmental Affairs, Programs;
Technical Review of submitted Plans**

Dear Mr. Molinski;

The Nunavut Water Board (“NWB”) has completed a technical review of the following:

- Spill Contingency Plan, revised November 2010 and entitled: “**Spill Contingency Plan Iqaluit Airport LTU, Nunavut NWB Water Licence Number: 1BR-LTU1013**” under Part H, Item 1;
- Abandonment and Restoration Plan, revised November 2010 and entitled: “**Stand Alone Abandonment and Restoration Plan Iqaluit Airport, Nunavut Water Licence Number: 1BR-LTU1013**” under Part I, Item 1.

The revised Spill Contingency, and Abandonment and Restoration Plans were found to meet the reporting requirements of licence 1BR-LTU1013. The NWB has therefore approved the Plans under Board Motion No. 2010-23-L01, dated December 6, 2010.

The Licensee is advised of its obligations to comply with all of the terms and conditions in its licence as well as all applicable regulations. The Licensee is also required to submit for the Board review a detailed project schedule that shall outline the time frames for each associated project work activity after contract award.

Should you have any questions, please feel free to contact the undersigned at 867-360-6338 ext. 30 or k.kharatyan@nunavutwaterboard.org, at your earliest convenience.
