Re: Additional Information Received Water License Application – Bugs Project

Dear Mr. Charlton:

Following the initial review of your application and comments received by various parties, it was noted that additional information was required. The following documents have been received and have been uploaded to our ftp site for review. These documents are:

- a) supplementary questionnaire
- b) updated spill contingency plan
- c) an abandonment and restoration plan
- d) uranium exploration plan

Since drilling is now a component of the amendment, and uranium is the identified deposit, these documents were required to complete the application. The NWB requests that these document be reviewed and comments forwarded to the Manager of Licensing no later than 5:00 pm on Thursday, May 22, 2008.

Please call the undersigned at (867) 360-6338 or e-mail [licensing@nunavutwaterboard.org](mailto:licensing@nunavutwaterboard.org) if you have any questions.

Sincerely,

***Original signed by:***

Phyllis Beaulieu  
Manager of Licensing
