Dear Mr. Pitman:

Re: Land Use Permit #N2008C0010
Type of Operation: Mining (Exploration)
Location: Nowleve Lake Area, Kivalliq, NU NTS 065K

Final plans for the captioned operation were received in this office on March 24, 2010.

Proper assessment of land use fees is contingent upon verification of your final plan submission, completed in conjunction with the final inspection.

At that time you will be notified by our Land Use Inspector should additional clean-up and/or restorative measures be required.

Sincerely,

Joseph Monteith
Land Operations Clerk

Joseph Monteith
Lands Operations Clerk, INAC

Dear Mr. Monteith,

Thank you for your phone call the other week and I apologize for having been away from the office and not getting back to you. However, I am glad I didn't as I just received today notification from Karen Costello (see below) that that a field inspection by Kevin Robertson has been completed and that the Bugs site has been approved for closure. Kevin apparently took several photos and will include them in his report. Once I receive this report I will forward immediately to you.

You may consider this formal notification that you may close both the 2007 and 2008 LUP.

Yours most sincerely,

Paul

PAUL W. PITMAN, P.Geo.

V.P. Exploration, Ur-Energy

Paul.

Thank you for your call about recent INAC inspections of the Bugs project. Please contact Kevin Robertson, INAC's Resource Management Officer who conducted an inspection of your site this past summer.

I spoke with Kevin yesterday and he is busy compiling his inspection findings from this past season. Kevin will be in touch with permit holders once he completes his inspection reports.

I stopped by the site and observed the 2008 core was nicely stacked at the site. I noted all tents, fuel, and garbage had been removed.

Regards,

Karen
