7. ABANDONMENT MEASURES

The following measures have been taken to address the final abandonment conditions required by the licence: (explain, with drawings, how abandonment conditions of the licence have been met; how stream channels have been rehabilitated; how tailings have been recontoured; how instream structures have been removed; and how waste materials have been disposed of. Enclose pictures if available.

This license authorizes water use (not to exceed 5 cubic meters a day) and waste disposal in association with a temporary camp that was planned to support two to four persons for a maximum two week time period while they conducted low impact, grass roots level exploration activities on Stornoway Diamond Corporation's property interests in the Coronation Gulf Region of Nunavut.

As the fly camp described in the application was never utilized and no water use or waste disposal was conducted under the authority of this license during its two year term there are no reclamation activities to report.
