**RE: Submission of Addendum to Spill Contingency Plan Under Licence No.**

Dear Ms. Westcott:

The Nunavut Water Board ("NWB or Board") received on August 12, 2010, the following documents from Stornoway Diamond Corporation, for the Coronation Gulf Project, located in the Kitikmeot Region, Nunavut:

- A cover letter, dated August 12, 2010, requesting that Part H, Item 2a of the terms and conditions of the licence be revised; and
- The revised Plan entitled "Spill Contingency Plan, The Coronation Gulf Project, Nunavut" dated August 9, 2010.

The Board has reviewed the request and notes the rationale outlined by the Licensee for not being able to provide a site map that accurately depicts the locations of the respective items outlined under the terms and conditions of Part H, Item 2a in the Licence. However, the Board feels that the requirement of that section could be tentatively satisfied by the submission of a proposed site map, for review by the Board. Therefore, the licensee is requested to submit by January 24, 2011, an addendum to satisfy the aforementioned requirement. With respect to the revised Spill Contingency Plan, the review determined that it has adequately addressed Part H, Item 2b under the Licence.

Should you have any questions, please feel free to contact the undersigned at 867-360-6338 ext. 25 or by email at [sjoseph@nunavutwaterboard.org](mailto:sjoseph@nunavutwaterboard.org).

Yours truly,
