**RE: LAND USE PERMIT APPLICATION N2002C0030 – HEEQOU
PROPERTY, NUNAVUT**

Phyllis,

To follow is the completed Nunavut Water Board Water Licence Application Form and the Exploration Remote Camp Supplementary Questionnaire relating to Diamondex's application for a Land Use Permit for its Heeqou Property. I have also forwarded a claim listing and map (with the 3 possible locations for the Heeqou camp) as well as the Inuktitut translation and English version of the Project Summary.

I have tried to answer the questions as completely as I can however in some instances I do not have all of the information/data at hand so I have done the best I could. Please contact me via phone on Friday July 5, 2002 in the office (604-687-6644) if you have any questions or concerns.

Should you have any information as to the community contacts for land use issues could you please forward it to me via fax? So far I have been unable to get this information from any government body and I would think they would have the best available contact list. Thanks very much!
