Subject: Permission of waste deposit in Baker Lake's landfill

Dear Mr. Norman,

I received the e-mail from Orin this morning. The response looks pretty well. I am looking after your enquiry for Part H, item 5 of the current license - "cementing the upper 30 m of bedrock or ..." right now. If there is anything new, I will let you know.

Before the NWB issues the amendment licence to your company, you have to obtain the permission for depositing waste in Baker Lake's landfill from the Hamlet and send one copy to us, because you currently use their facility.

Best regards,

Zhong Liu, MAsC., MBA, MSc.
