Subject: Request for cancellation of water licenses -INAC response

Hi Phyllis,

INAC has not undertaken inspections of the sites included under the 2BE-HEE0712 and 2BE-PER0611 water licenses in 2008 and respectfully requests that the NWB not cancel these licenses until closure inspections have been completed. It is anticipated that this will occur during the summer of 2009.

I would also like to request that the locations of any drilling activities, remote camps, fuel caches or storage sites set up on the property that are not in the immediate area of the license coordinates, be disclosed by the proponent (if not already provided in a 2008 annual report).

Thank-you,
Melissa
