Re: 2BE-SNN0813 – Submission of Revised Spill Contingency Plan and Abandonment and Restoration Plan

Dear Ms Beaulieu,

Attached please find copies of a revised Spill Contingency Plan and a revised Abandonment and Restoration Plan for the Aviat Project as requested as a part of the terms and conditions of Nunavut Water Board License 2BE-SNN0813.

Please note that Part I, Section 2.d requests a schedule for implementing the Abandonment and Restoration Plan, however as the Aviat Project is still engaged in early stage exploration activities it is not practicable to subscribe to a definitive time schedule for the conclusion of this land use operation.

The Abandonment and Restoration Plan does describe restoration activities that are done on an ongoing or seasonal basis as well as those that will be required once the land use operation is complete and the temporary camp facility is removed and the area restored.

If you have any questions regarding this submission or require any further information please do not hesitate to contact the undersigned at your convenience.

Yours truly,

STORNOWAY DIAMOND CORPORATION

Per:

Nicole Westcott
Land Administrator
