Hi Phyllis,

Deborah has sent me a table of coordinates, unfortunately, I have not been able to use them in the format given. I've been looking for a way to import the coordinates but have not had sufficient time to find a solution. Deborah, sorry I haven't had a chance to get back to you on this. I spent a couple days trying to convert the data then got pulled away onto an urgent file. If you are able to send me the coordinates in a manipulable format, I might be able to import them into my software. At minimum a .csv file and I can have my GIS guys import it, but if I can get it in a .gdb or .gpx I can import it directly. Unfortunately, starting with a .pdf, I would have to manually input which I don't have the time to do. It seems likely, however, that I will have to re-do this inspection regardless. Since I was flying without any working coordinates the first time I simply did a pass over the property.

Regards,

Eva

Please refer to the attached whereby the AANDC Inspector requested coordinates of the project. Our office will await confirmation from AAANDC of no outstanding issues before we cancel the licence.
