Subject: Trigon Exploration Canada Ltd. – Tim Project – New Type “B”

Dear Ms. Perry:

The Nunavut Water Board (NWB) acknowledges receipt of your application for a new water license on June 29, 2006 for water use and waste disposal associated with exploratory drilling operations for the Tim Project, in the Kitikmeot region of Nunavut. The application can be obtained from our ftp site at the following link <http://ftp.nunavut.ca/nwb/2BE/2BE-TIM/> or by contacting our office, and consists of the following items:

- water license application form
- supplementary questionnaire
- area map
- non-technical project proposal in English and Inuktitut
- previous exploration summary
- references
- fuel spill contingency plan
- material safety data sheet

We undertook a preliminary review of your application and conclude that it meets the requirements of section 48(1) of the *Nunavut Waters and Nunavut Surface Rights Tribunal Act* (“Act”). This said, I must inform you that the NWB reserves the right to request additional information and studies pursuant to sections 48(2) of the Act or, alternatively, issue guidelines for the provision of information pursuant to section 48(3) of the Act.

An NWB Technical Advisor may be in touch with you to clarify any technical details related to your application.

However, before your application can be processed further by the NWB, it is subject to sections 38(1) to 38(5) of the Act and therefore must first be reviewed by the **Nunavut Planning**

Commission (NPC) to determine its conformity with an approved land use plan. By copy of this letter to the NPC, we are formally asking our sister board to undertake this determination and inform the NWB of its decision.

Pursuant to Section 13.7.3 of the Nunavut Land Claims Agreement this application is of a class that does not require a public hearing, and is therefore exempt from screening by the Nunavut Impact Review Board, as per Schedule 12-1 of the NLCA. We are consequently requesting **NPC to forward the application back to the NWB** when its determination is complete.

Finally, by copy of this letter to the distribution list and the enclosed notice of application sent to the council of the municipality or municipalities most affected by your application, we invite interested persons to make representations directly to the NWB within 30 days from the date of this letter. Please note that a Fuel Spill Contingency Plan was also received with the application and requires review. The NWB may provide additional procedural instructions once the application has been reviewed.

Sincerely,

Original signed by:

Phyllis Beaulieu
Manager of Licensing

Enclosure: Notice of Application
