SECTION 1	Comments (s	.1) Non-Complia	nce with Act or	Licence (s.2)	Action Requi	r ed (s.3)										
On July 20, 2014 I inspected the project area associated with this water licence. To my understanding, no work was done during the tenure of this licence; the last work was a till sampling program in 2006 under 2BE-TIM0608.																
As no camp was established under this licence and no drilling occurred, the till sampling was the activity inspected, by following the																
A review of the NWB	public registry in	dicates that on August 23, 20	•	quested that Diamono	dex provide three	transects where till samples were taken. The area was left in an acceptable state. A review of the NWB public registry indicates that on August 23, 2013 the NWB requested that Diamondex provide three documents, that do not appear to have yet been submitted:
