Re: **2BE-TIM0813 – Annual Report, 2008 – Diamondex Resources. – TIM Project**

The 2008 Annual Report satisfactorily addressed some of the requirements of Part B, Item 2 of the current water licence #2BE-TIM0813. Although most of the conditions under the water licence were not applicable this year, (as no work occurred at the site) it was noted that the following information was not provided in the 2008 Annual Report.

Part B: Item 2, (c): An up-to-date copy of the Spill Contingency Plan, including contact information;

Part B: Item 2, (d): A description of all progressive and or final reclamation work undertaken, including photographic records of the site conditions before, during and after completion of operations;

Part B: Item 2, (e): A summary of all information requested and results of the Monitoring Program;

This information has been forwarded to our Field Operations Unit
