

**NWB Annual Report****Year being reported:**

License No: NWB2WLS0406 Issued Date: August 4, 2004  
 Expiry Date: July 31, 2006

**Project Name:** *Wales Island*

**Licensee:** *Strongbow Exploration Inc.*

**Mailing Address:** *800-625 Howe Street  
 Vancouver, BC  
 V6C 2T6*

**Name of Company filing Annual Report (if different from Name of Licensee please clarify relationship between the two entities, if applicable):**

*Strongbow Exploration Inc.*

**General Background Information on the Project (\*optional):**

*Strongbow Exploration Inc. undertook a small exploration program on their prospecting permits covering Wales Island (NTS: 47B/03, 47M/15, 16) in August of 2005. The program consisted of drilling 8 geophysical targets, ground geophysics on additional geophysical targets and till sampling.*

*The 2005 exploration program was conducted from August 4<sup>th</sup> to September 10<sup>th</sup>, 2005 and project personnel included one geologist, four drillers, one helicopter pilot, one helicopter engineer, two geophysicists, one cook/first aid attendant and one bear safety officer. A temporary exploration camp consisting of six tents (3 sleepers, 1 office, 1 kitchen, and 1 dry) was established at a southern location on Wales Island.*

**Licence Requirements: the licensee must provide the following information in accordance with**

**A summary report of water use and waste disposal activities, including, but not limited to: methods of obtaining water; sewage and greywater management; drill waste management; solid and hazardous waste management.**

Water Source(s):	<u>camp water source 67° 45' 44" N, 86° 39' 20" W</u>	
Water Quantity:	<u>10 cu.m/day</u>	Quantity Allowable Domestic (cu.m)
	<u>0.08 cu.m/day</u>	Actual Quantity Used Domestic (cu.m)
	<u>50 cu.m/day</u>	Quantity Allowable Drilling (cu.m)
	<u>0.4 cu.m/day</u>	Total Quantity Used Drilling (cu.m)

**Waste Management and/or Disposal**

*Water for domestic use was pumped daily into a holding tank from a lake adjacent to the camp (see coordinates provided above for camp water source). All drill cuttings were contained in the area of the collar by natural depressions. Throughout the occupation of the camp runoff from the dry was absorbed by the ground. No garbage was burned on site. All refuse was backhauled to Igloolik.*

Additional Details:

#### A list of unauthorized discharges and a summary of follow-up actions taken.

Spill No.:  (as reported to the Spill Hot-line)

Date of Spill:

Date of Notification to an Inspector:

Additional Details: (impacts to water, mitigation measures, short/long term monitoring, etc)

*No unauthorized discharges occurred under the authority of this license during the 2005 exploration program.*

#### Revisions to the Spill Contingency Plan

Additional Details: *Revisions to the Spill Contingency Plan were requested by the Nunavut Water Board upon issuance of the amendment to NWB2WLS0406 issued July 4, 2005 that added temporary camp facilities to the activities authorized under this license. Revision was submitted to the NWB on July 28, 2005.*

#### Revisions to the Abandonment and Restoration Plan

Additional Details: *Revisions to the Abandonment and Restoration Plan were requested by the Nunavut Water Board upon issuance of the amendment to NWB2WLS0406 requested July 4, 2005 that added temporary camp facilities to the activities authorized under this license. Revision was submitted to the NWB on July 28, 2005.*

#### Progressive Reclamation Work Undertaken

Additional Details (i.e., work completed and future works proposed)

*All drill set-ups were cleaned up and the surrounding area restored as per the project's Abandonment and Restoration Plan. Anchors were cut as close as possible to the ground, and cuttings were contained in the area of the collar by natural depressions. Upon closure of the camp for the winter the outhouse was backfilled with gravel/dirt, the kitchen sump was cleaned of food debris, and all water drained into the gravel. Throughout the occupation of the camp runoff from the dry was absorbed by the ground. No garbage was burned on site. All refuse was backhauled to Igloodik.*

*Future occupation of this camp site and work on these landholdings is contingent upon results.*

#### Results of the Monitoring Program including:

**The GPS Co-ordinates (in degrees, minutes and seconds of latitude and longitude) of each location where sources of water are utilized;**

Location Description (type)	Latitude			Longitude
