Subject: 3BC-ASM----

Hello Phyllis,

Based on the PTR for the above-mentioned file, the following deficiencies were noted:

1. A Stand-alone Spill Containment Plan (SCP) was not provided
2. An abandonment and restoration plan (A&R) was not provided
3. Permission obtained from the communities to which waste will be backhauled was not provided
4. Information was not provided on where empty barrels and drums will be flown to.

If you have any questions about this file and or if I have missed any relevant procedure, please do let me know.

Thanks.

Sean
