Hi Kevin - when you get a "free moment" take a look at the attached application and confirm whether or not they need a water licence. My opinion is that they do not as they are not using any water and not depositing any waste. They have a current licence now but no water use authorized. I don't believe they actually needed a water licence before either, but because of the number of people involved and them not being of Inuit decent, we went ahead and issued them a license anyway.

Regards,

Phyllis Beaulieu
