Subject: RE: DND Arctic Operations Advisor Course Session 7 (AOA) - Session 7

Hello all,

NIRB screened a DND Winter Warfare project last year (NIRB File 09DN009 - screening decision attached) which I believe corresponds to the water licence currently being amended (referenced in the attached NPC correspondence). NIRB's trigger for screening was the authorization required from the Qikiqtani Inuit Association - if this is indeed the same project and the only authorizations currently being required are a Class B Water Licence and a Class B INAC Land Use Permit, then the proposal would be exempt from further screening.

Please advise if anything further is required.

Best regards,

Ryan

Good day,

(to the person of concern)

We are presently making an amendment application acknowledgement with the Nunavut Water Board and they are requesting the following:

1- NIRB Screening Decision (or confirmation in writing that a NIRB screening is not required)

Before Christmas we have obtained a permit renewal from INAC : Permit # N2007J00434. More recently, we have obtained a conformity letter from the NPC that was sent to your organisation.

I would like to know if something is required from us and assure that the process will start in your organisation?

If ever you need more information on the project I am referring to, it will be a pleasure to send it to you.

Thanks for your time!

Danny Roy
