RE: Licence 3BC-NTC1012 – Review of 2010, 2011 Annual Reports and the Compilation Report for the Northeast Thelon Compilation Project

Dear Mr. Jefferson:

The Nunavut Water Board (NWB or Board) received on June 7, 2011 and December 12, 2012 the 2010 and 2011 Annual Reports, respectively, from the Geological Survey of Canada as required under the relevant terms and conditions of Licence 3BC-NTC1012, which was issued to the Northeast Thelon Compilation Project on July 21, 2010 and expired on August 30, 2012. The project is situated at multiple locations in the vicinity of the Hamlet of Baker Lake within the Kivalliq Region of Nunavut.

In addition to the above-mentioned reports, the NWB received on September 26, 2012, the document entitled *Northeast Thelon Compilation Report to Baker Lake, Chesterfield Inlet and Rankin Inlet*, which provided details on the scope of activities carried out under the project for specific periods including the timeframe during which the licence was issued.

The NWB distributed the 2010 Annual Report and the Northeast Thelon Compilation Report to interested parties, in addition to providing access to all documents associated with the file by means of the NWB's FTP site, which can be accessed using the following link (Username: "public"; Password: "registry"):

No specific comments have been received to date from intervening parties with respect to the above-mentioned documents. NWB's staff has reviewed the documents and determined that they are generally satisfactory and consistent with the reporting requirements under Licence 3BC-NTC1012.

Should you have any questions, please do contact the undersigned at (604) 321-8185 or by email at sjoseph@nunavutwaterboard.org.

Yours truly,
