Hi Phyllis,

FYI, please add this to the FTP.

Good Morning Josee,

Thank you for your response to the inspection, please include the Manager of Licensing on correspondence.

I have one request regarding the response, could you send me the map in a separate file? I would like to print the map and have it for my office and other uses. I also would not have a problem with waiting until the next inspection to get a paper copy of the map from Jeff if the file size is to large.

Regards,

Christine
