**Re: NWB 1BR-UTI Transport Canada – Utilidor Demolition – Removal & Abatement – Renewal – Iqaluit Airport**

Transport Canada (TC) would like to thank Environment Canada for the review and specialist advice addressed to Nunavut Water Board (NWB) dated June 3, 2006 regarding the above project.

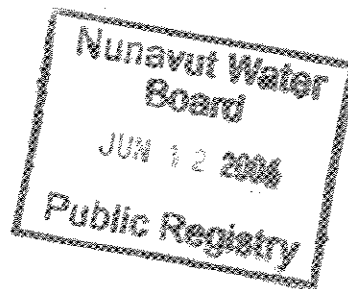

TC will comply with all federal legislation including (but not limited to) the *Fisheries Act*, the *Canadian Environmental Protection Act*, the *Migratory Birds Convention Act* and the *Species at Risk Act*.

TC will remove and contain all asbestos waste as described in the license application. Air monitoring will be conducted throughout the project to ensure a safe work environment. The asbestos waste will be removed and shipped to a licensed disposal facility outside of Nunavut.

If you have any additional questions or would like to discuss the project in more detail, please contact me at (204) 984-0440.

Sincerely,

Mike Molinski  
Environment Officer  
Programs, Prairie and Northern Region  
Environmental Affairs
