APPLICATION FOR APPROVAL FOR THE USE OF WATER OR DEPOSIT OF WASTE WITHOUT A LICENCE

Refer to the *Guide to the Approval for the Use of Water or Deposit of Waste Without a Licence* (Guide) in completing this Application.

	APPLICATION NO: (for NWB use only)					
1.	APPLICANT CONTACT INFORMA (name, address)	ATION	2.	APPLICANT REPRESENTATIVE CONTACT INFORMATION if different from Block 1 (name, address)		
Sheri	lee Harper					
Fax:	519-824-4120 ext. 58392 519-763-8621 harpers@uoguelph.ca	_	Fax: e-mail:	authorization letter)		
3.	NAME OF THE OWNER OF THE I					
	N/A					
4.	NAME OF PROJECT (consistent with the name of the project issued by other regulatory agencies)					
Surface	Surface Water Quality in Iqaluit Nunavut					
5.	5. LOCATION OF UNDERTAKING					
Project Extents (decimal degree format)						
NW	N 63 46.108	N 68 35.446				
NE	N 63 45.326	N 68 30.270				
SE	· · · · · · · · · · · · · · · · · · ·	N 68 30.001				
SW	N 63 44.760	N 68 35.872				

Camp Location(s) (decimal degree format)					
	No camp				
	Name of the Water Management Area in which the Undertaking is located. (Please see Appendix D of the Guide): Area # 53				
6.	Previous Approvals or Licences Associated with Undertaking ("Type A", "Type B" or Approval Without a Licence)				
	□ NA or				
	Previous Licence/Approval Number:				
	The Board reminds the Applicant that as stated in s. 46 of the NWNSRTA, the expiry or cancellation of any previous licence does not relieve the holder from any outstanding obligations imposed under the licence.				
7.	CLASSIFICATION OF UNDERTAKING - Indicate the classification of undertaking by checking one of the following boxes.				
	☐ Industrial ☐ Agricultural ☐ Mining ☐ Recreational ☐ Conservation ☐ Power ☐ Municipal ☐ Other: (describe)				
	scientific research				
	See Appendix C of the Guide for descriptions of classifications of undertakings.				
8.	DESCRIPTION OF UNDERTAKING AND EQUIPMENT USED – Provide a brief description of the undertaking including a description of any equipment that will be used in using water or depositing waste.				
The project is located within the Qikiqtani (South Baffin) region, within the city boundary of Iqaluit. The proponent intends to collect raw water samples from the Apex River, Sylvia Grinnell River and Airport (Carnery) Creek for parasites testing. The program is proposed to take place from July 2016 to October 2016 and will involve the following: Collect up to 100 litres (L) of surface water from Apex River and Sylvia Grinnel Rivers per week (100L/river/week), with an additional collection of 50-100 L (total) from the Carney Creek during project duration; Use of portable handheld device to measure water chemistry parameters such as temperature, pH, and electrical conductivity; Use of one (1) truck or ATV to access sampling locations using existing public roads; Transportation of water samples to NRI laboratory for filtration and testing, followed by the filter cartridges being shipped to a laboratory in Guelph, Ontario for analysis					

9.	SCHEDULE – Applicants are advised that approvals without a licence are issued for a one year term.				
	Proposed Start Date: 01 July 2016 Proposed Completion Date: 31 October, 2016 (Day/Month/Year) (Day/Month/Year)				
10.	TYPE OF USE OF WATER WITHOUT A LICENCE PROPOSED - Check the box that applies to the type of water use proposed. If none of the water uses listed below applies to the proposed water use, an application for a water licence will be required. See the NWB's <u>Guide 4</u> — Completing and Submitting a Water Licence Application for a New Licence.				
	For an undertaking other than a Power undertaking and for a use of water related to the construction of a structure across a watercourse that is less than 5 metres wide at the ordinary high water mark at the point of construction.				
	For an undertaking other than a Power undertaking and for a use of water related to the training of an intermittent watercourse.				
	For an undertaking other than a Power undertaking and for a use of water related to the training of a watercourse that is less than 5 metres wide at the ordinary high water mark at the point of training.				
	For an undertaking other than a Power undertaking and for a use of water related to the training of a watercourse that involves the infilling of the watercourse, if the watercourse has no inflow or outflow and a surface area of less than 0.5 hectares.				
	For an undertaking other than a Power undertaking and for a use of water related to the training of a watercourse that involves removal or placement of less than 100 m ³ of material.				
	For an undertaking other than a Power undertaking and for a use of water related to the construction of a temporary structure in a watercourse for the purpose of flood control.				
	For an undertaking other than a Power undertaking and for any use of water related to the storage of 2,500 m3 or less.				
	For an undertaking other than a Power undertaking and for any use of water less than 50 m ³ per day.				
11.	QUANTITY AND QUALITY OF WATER INVOLVED - For each type of water use indicated in Block 10, provide the source of water, the estimated quantity to be used in <u>cubic metres per day</u> , and the periods during which water will be extracted.				

Type of Water Use indicated in Block 10	Name of water source	Estimated quantity of water to be used in cubic metres per day	Periods during which water will be extracted
Sampling for research	Apex River	0.014	July 01 to October 31, 2016
Sampling for research	Sylvia Grinnel River	0.014	July 01 to October 31, 2016
Sampling for research	Carney (airport) Creek	0.001	July 01 to October 31, 2016

	indicated in Block deposited in cubic or mitigate any which waste will				
Typ	e of Waste	Quantity to be	Measures to avoid	Periods during	
3. QUANTITY AND QUALITY OF WASTE INVOLVED – For each type of waste indicated in Block 12, describe the quantity in cubic metres/day, measures to avoid or mitigate adverse impacts, and periods of deposition.					
For any Other type of undertaking not listed above, other than Municipal, any deposit of sewage to a sump. Not applicable					
	For a Recreation undertaking, any deposit of sewage to a sump.				
	For a Conservation undertaking, any deposit of sewage to a sump.				
	For an Agricultural undertaking, any deposit of sewage to a sump.				
	For a Power unde	ertaking, any deposit of sev	wage to a sump.		
	For a Mining undertaking, for an activity related to exploratory work, any deposit of sewage to a sump.				
	For an Industrial undertaking, for an activity related to quarrying and gravel washing, and for any deposit of waste that is not deposited to surface water and that results from quarrying or gravel washing above the ordinary high water mark.				
	For an Industrial undertaking, for an activity related to hydrostatic testing or cleaning of storage tanks and pipelines, and for any deposit of waste resulting from hydrostatic testing or cleaning of unused storage tanks or pipelines.				
12. TYPE OF DEPOSIT OF WASTE PROPOSED - Check the box that applies to the type of deposit of waste proposed. If none of the deposits of waste listed below apply to the proposed deposit of waste, an application for a water licence will be required. See the NWB's Guide 4 – Completing and Submitting a Water Licence Application for a New Licence.
