**Re: Additional Analysis Submission for Information Requests on the Draft  
Environmental Impact Statement for Phase 2 of the Hope Bay Project**

Dear Tara,

In follow up to TMAC's submission to Information Requests (IR's) on March 17<sup>th</sup>, TMAC is providing additional information to the Government of Nunavut (GN) and Kitikmeot Inuit Association (KIA). As noted in TMAC's March 17<sup>th</sup> submission, several IR's were of a technical nature and required additional analysis of data. TMAC has opted to provide the analysis and interpretation of data in this submission rather than deferring our responses until after technical comments from parties are submitted. This submission includes additional analysis for:

- KIA IR # 16, 17, and 30.
- GN IR # 16,18, and 21

We hope this information will further assist the GN and KIA with their ongoing technical review of the Draft Environmental Impact Statement. Should you have any questions please feel free to contact me at [oliver.curran@tmacresources.com](mailto:oliver.curran@tmacresources.com).

Sincerely,

A handwritten signature in blue ink, appearing to read "Oliver Curran".

Oliver Curran

Director, Environmental Affairs, TMAC
