Re: Update on the Back River Project Information Request Response Timing

Dear Ms. Hanson:

As follow-up to our April 22nd, 2014 letter Sabina Gold & Silver Corp. (Sabina) wishes to provide an update to the Nunavut Impact Review Board (NIRB) on the timing of Sabina's Information Request (IR) submission.

Following numerous discussions with authorizing agencies and various interveners Sabina has opted to push back the submission of our IR responses from the original self-imposed June 11th, 2014 deadline. After further consideration we feel that providing additional requested information prior to commencement of the technical review comment phase will assist authorizing agencies and interveners complete a more robust review of the DEIS.

As such, on or before July 23rd, 2014 Sabina will provide the following information packages to the NIRB:

- Responses to all comments which the NIRB deemed as IR's in their April 7th, 2014 letter to Sabina.
- Responses (where possible and practical) to all comments which the NIRB deemed as non-IR's in their April 7th, 2014 letter to Sabina.

At approximately the same time as the above submission, Sabina will provide the following additional information packages to the NIRB and Nunavut Water Board (NWB):

- A standalone site preparation/pre-development work document to provide additional clarity on Sabina's request as presented in the DEIS.
- Updated Type B Water Applications, as they relate to site preparation/pre-development works, in order to meet the preferred methodology of the NWB.

Sabina will also utilize this time to discuss these packages of information with relevant authorizing agencies and key interveners prior to formal submission.

Should you have any further questions please feel free to contact the undersigned at 604-484-8967 or mpickard@sabinagoldsilver.com.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Pickard", with a long, sweeping horizontal stroke extending to the right.

Mathew Pickard
