Hello Karén and Richard, I am sending this e-mail to formally notify you that Richard Nesbitt, KIA's aquatic and water quality consultant will be attending the Back River Project Type A water license PHC with me and our legal council may phone in if required.

As for the Hope Bay Project Type A water license PHC, it is not yet determined if our water quality consultant will attend this. We are currently seeking to resolve two remaining issues with TMAC. If they are resolved our consultant will not be attending. Our legal council may phone in if required.

Thank you

John
