The Nunavut Water board is aware that a number of web browsers are no longer supporting File Transfer Protocol (ftp). If you are having difficulty accessing our FTP site, you may need to download an FTP application. We have been recommending the FileZilla Client below to access the files, which is a free and open source application. A link can be found below:

To ensure that members of the public, in attendance at the Public Hearing, have easy access to the presentations submitted by the respective parties, the NWB requests that parties make available at least 30 paper copies of their English presentations and at least 25 paper copies of their English, French and Inuinnaqtun executive summaries.

The NWB takes this opportunity to thank all who have participated in the amendment process for the Application thus far and encourages their continued participation in the remaining stages of the process.

If you have any technical questions or require clarification with respect to the above information, please contact Sergey Kuflevskiy, Technical Advisor, by email at sergey.kuflevskiy@nwb-oen.ca.
