The licensee is to provide a plan 3 weeks after receiving the report to ensure the following concerns are addressed, this plan shall include a timeline for implementation.

- 1. The licensee is to ensure all hazardous material is kept within secondary containment.
- 2. The licensee is to ensure no waste/water resulting from washing vehicles is enter water and/or causing erosion.
- 3. The inspector is recommending that licensee install drip trays below the fuel tank noted in a, III.
