### AFFILIATION:

TITLE: 2014 Back River Project Baseline Program

### OBJECTIVES OF RESEARCH:

Sabina Gold and Silver Corp. (Sabina) is in the process of permitting the proposed Back River Project (the Project), located in the West Kitikmeot region of Nunavut. Rescan has been conducting baseline studies to support this project on behalf of Sabina for the past several years. A draft Environmental Impact Statement will be submitted to the NIRB in early 2014. It is anticipated that all required baseline information has been collected for the proposed project, but information gaps could be identified during the regulatory process. Additional field studies may also be required to support potential changes and refinements to engineering studies.

### TERMS & CONDITIONS:

The holder of the license will be bound by the terms and conditions of the Nunavut Impact Review Board Screening Decision Report and by the Department of Culture and Heritage archeological sites terms and conditions. These terms and conditions will form part of this license.

### DATA COLLECTION IN NU:

DATES: March 15, 2014-March 15, 2017

LOCATION: George Camp, Goose Camp

Scientific Research License 04 012 14N-M expires on December 31, 2014

Issued at Iqaluit, NU on April 03, 2014
