On January 19, 2016 the Nunavut Water Board ("NWB") sent out correspondence pertaining to the Technical Meeting for Doris North Project. Note that the following text also implied to submitting Inuinnaqtun copies stated on pages 3-4 :

"In preparation for the upcoming TM for the Application, the NWB recommends that participants review the Application and relevant information submitted to the Board in relation to the Application. Further, the NWB requests that each party, intending to make representation during the TM prepare a presentation that includes highlights of issues identified, addressed, and that remain outstanding at this stage in the review process. Presentation materials should be provided in English and Inuktitut. In order for the NWB to provide public access to electronic copies of parties' presentations prior to the TM, the Board requests that all presentations be submitted, by Monday, January 25, 2016 at 12:00 PM (MST), to the NWB's Manager of Licensing. All parties are also requested to make available sufficient hard copies of an executive summary of their submissions, complete with Inuktitut translations, for those in attendance at the Technical Meeting and Community Session."

This advises Parties to provide Executives Summaries and Presentation in Inuinnaqtun.

Robin
