**Re: Comments on TMAC Resources Inc.'s Proposed Modifications to the Doris North Gold Mine Project and Reconsiderations of the NIRB Project Certificate No 003 Terms and Conditions**

NIRB has requested comments from Kitikmeot Inuit Association (KIA) regarding proposed changes to the Doris North Gold Mine project and whether the NIRB Project Certificate No 003 requires reconsideration.

Cambridge Bay

 $\Delta^{\text{q}}\text{b}\text{ } \dot{\text{J}}^{\text{c}}\text{N}\triangleleft^{\text{qb}}$

The application that TMAC has submitted regarding the proposed changes is very similar to the request forwarded by Hope Bay Mining Ltd. (HBML) on December 16, 2011. Also the letter from NIRB dated December 19, 2013 asks KIA and the parties the same questions that were generated from the original HBML amendment application. KIA responded to the NIRB request on the HBML proposed modifications on January 26, 2012. KIA's comments within the January 26, 2012 letter to NIRB apply to the TMAC amendment application.
