Kelli,

In your letter of December 3, 2014 NIRB requested an update on the proposed resubmission date of TMAC's application for amendments to the Doris North Project Certificate. I wish to inform you that our currently projected date for submittal of the revised amendment package is April 30, 2015.

TMAC wishes also to advise NIRB and NWB that the package will include a request for amendments to the Type A Water License (2AM-DOH1323).

Thank you for your request, should you require any further information, please do not hesitate to contact me directly.

Regards and best wishes for the holiday season.

John
