Hi Kelli,

In response to information request AANDC-NIRB #7, TMAC committed to providing the following technical document upon request:

SRK Consulting (Canada) Inc., 2009. Hope Bay Gold Project: Stage 2 Overburden Characterization Report. Report prepared for Hope Bay Mining Ltd. Project Number 1CH008.002. September.

In response to a request received from INAC today related to this IR, we have provided this document directly to them; the file is very large, so email submission is not feasible.

Should other Parties wish to obtain this document, they can contact me and we will facilitate access.

Regards,
Sharleen
