

#### Project Certificate Terms and Conditions:

“Also, in the event of a conflict with the “*Commentary*” and the Terms and Conditions, the Terms and Conditions prevail. (The “*Commentary*” is not to be construed as legally binding)”

#### **The PC Appendices**

1) With respect to KIA’s comments on Appendix B of the Project Certificate, *List of Applicable Legislation and Authorizations required for the Doris North Gold Mine Project*, the Board accepted KIA’s request to remove any reference to KIA from the Appendix. Furthermore, for your information, the purpose of Appendix B is to provide guidance to the proponent, Miramar Hope Bay Limited (MHBL) through the upcoming regulatory phase of the project.

2) With respect to KIA’s comments on Appendix C of the Project Certificate, *Table of Commitments and Regulatory Roles*, the purpose of this Appendix is, again to provide guidance to MHBL through the regulatory phase and contains **all 238 commitments** made by MHBL including:

- 149 commitments made by MHBL as referenced from Appendix A of the NIRB’s Final Hearing Report dated March 6, 2006;
- 12 commitments as referenced from the addendum to Appendix A of the NIRB’s Final Hearing Report; and
- 77 commitments as referenced from Appendix B of the NIRB’s Final Hearing Report.

Given the difficulty in reading the complete Appendix C table in excel format, this table has since been converted to Adobe pdf format for ease of reference.

3) With respect to KIA’s comment that “...many of the things on this list (Appendix C) are not expressed in language that could ensure legal enforceability.”, the NIRB did not feel it appropriate to alter the wording of MHBL’s own commitments and therefore decided that incorporation of the Proponents Commitments into Conditions 1, 2, and 3 of the Project Certificate would satisfy this concern.

#### **Monitoring program**

1) With respect to KIA’s comment on Appendix D of the Project Certificate, *Monitoring Program*, NIRB is required to fulfill its responsibilities pursuant to Section 12.7 of the NLCA in the time frame provided for in the Project Certificate.

Should you have any concerns related to this matter please contact me at 897-983-4603 or [sbriscoe@nirb.nunavut.ca](mailto:sbriscoe@nirb.nunavut.ca).

Sincerely,

Stephanie Briscoe  
Executive Director
