**Re: Water Licence #2AM-DOH1323, Anticipated amendment application review  
Clarification on information request process**

Dear Ms. Beaulieu:

Yesterday the Nunavut Impact Review Board (NIRB) notified interested parties that the deadline for providing information requests on TMAC Resources Inc.'s application to amend the Doris North Project's NIRB Project Certificate (NIRB File #05MN047) is 5 p.m. MT, February 18, 2014. On November 29, 2013, TMAC Resources Inc. submitted a project proposal with detailed technical supporting documents to the NIRB and Nunavut Water Board (NWB). This information is available on the NIRB public registry and described in the attached cover letter<sup>1</sup>. TMAC Resources Inc. are requesting that the NIRB and NWB coordinated their respective amendment review processes to the greatest extent possible.

Considering TMAC's Resources Inc. request for a coordinated NIRB-NWB review process, I am unsure if information requests specific to the water licence amendment application should be included in the NIRB's current call out for information requests. If possible, please let me know if there will be a separate opportunity to provide information requests specific to the water licence amendment application. The department's Water Resources Division will participate in the NIRB's project certificate amendment review process but would appreciate greater certainty on how the water licence amendment application will be handled.

Please do not hesitate to contact me by telephone at 867-975-4555 or email at [david.abernethy@aandc-aadnc.gc.ca](mailto:david.abernethy@aandc-aadnc.gc.ca) for further information.

Regards,

David Abernethy  
Regional Coordinator, Water Resources Division
