Robin

TMAC thanks the Nunavut Water Board for the opportunity to comment on the requests from Environment Canada (EC) and Aboriginal Affairs and Northern Development (AANDC) for an extension to the review period for the Doris North Gold Project Water License 2AM-DOH-1323 Amendment Application (to September 18 and September 23, respectively). TMAC wishes to remind the NWB and the parties involved in the regulatory process that because of the once per year sealift window, the project implementation timelines and financing requirements delays in regulatory reviews can have serious implications for the project execution. Given these facts it would be TMAC's preference that the review of the Amendment Application proceed on the original timeline.

TMAC is of course aware that the Nunavut Impact Review Board (NIRB) has granted an extension request from AANDC to September 18. We also understand and appreciate that the NIRB and the NWB are working together to coordinate their regulatory processes. In light of these facts, TMAC would accept an extension to the NWB review period to September 18, 2015 to match the NIRB deadline.

Kind regards

John Roberts.

M. John Roberts
